Building products from 0-1 with early teams and large organisations. Design with intent. Move fast.

EXPERIENCE

Founding Designer and AI Design at 0-1 Companies

Stealth Companies | March 2026 Remote

- Designed a B2B SaaS AI chat agent that surfaced LLM-generated work knowledge via Chrome extension and desktop app. Defined brand, product, and design system from prototype to Beta 1 in 3 months.

AminoChain | Dec 2024 – Feb 2026, New York and Remote

- Built product design, brand, and research practice from scratch, shipped MVP-to-Alpha in 1 month, Beta in 2 months, and GA.
- Led product, brand and marketing for 2 platforms, mobile apps and web, before Series A.

Sr. Product Designer for International, Home and Search

Roku | Mar 2022 – Nov 2024, New York and Remote

- Worked the Home screen redesign for Roku.
- Faced multiple reorgs: international team to support expansion of their hardware and software in the APAC,, LATAM. Live TV, Settings and Search.
- Experiments and A/B tests that improved OTA engagement by 18%.

Sr. Designer for Digital Twins, Gaming and News

Various Companies | Nov 2020 – Feb 2022, Remote

- Designed at Matterport in the digital Twin space.
- Samsung: Built the Gaming experience for 2022 TVs
- Meta: Shipped News and the Creator side.

Lead Designer for International

Disney+ | Mar 2019 – Oct 2020, New York and Remote

- Focused on the launch of Disney+ in all markets beyond the US. Led Foundational Research, Product Design, Design Systems and growth strategies for mobile apps, web and TV.
- Focused on growth in CJK markets and going from 9 million to 200 million users in 2 years, ownership on Design System and Fonts.

Product Designer for Wearables, Car Integrations and ML

Spotify | Nov 2016 – Sep 2018, Stockholm and Boston

- Shipped the iOS Watch: the most requested feature of 2016.
- Delivered Car-mode original design and TV
- Focused on ML experiments based on user intents.
